-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-3, 8-10, 18-19, 24-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over HOSHIZAKI ELECTRIC CO LTD [HOSHN] (JP 10327763 A).

HOSHN discloses a dispensing apparatus with a freezer compartment of a refrigeration system comprising a dispenser housing/part 35 mounted on a front surface of the refrigerator/freezer door 3; a supplying pipe 38 provided at an upper portion of the dispenser housing/part 35 configured to supply ice cream/there though; and a drain/receiver pan 60 detachably disposed at a lower surface of the dispenser housing and configured to collect water therein; and a locking unit/screw 63 provided between the drain/receiving pan 60 and the dispenser housing, wherein the locking unit is configured to secure the drain/receiver pan 60 to the dispenser housing when the locking/screw 63 is engaged, and to release the drain/receiver pan 60 when the locking unit/screw is disengaged, a micro-switch 45 to open and close the opening 40 of the dispensing pipe 38. HOSHN discloses the invention substantially as claimed as stated above. See Fig. 2-3. Fig. 8 teaches to slidably install the pan 82. However, HOSHN does not disclose to dispense water. It is an obvious choice of an individual to dispense

water, ice, desert or any other drinks from a dispenser from a freezer compartment of a refrigeration system since there is no criticality or unexpected result from it.

Allowable Subject Matter

Claims 4-7, 11—17, 20-23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 32-44 are allowed.

Response to Arguments

Applicant's arguments filed 06/15/05 have been fully considered but they are not persuasive. The Applicant argued, "The receiving pan 60 is clearly attached to the apron panel 51 by the screws 63 threaded engagement with the apron panel 51, and not through any elastic deformation of the screw. Thus, JP '763 neither disclose nor suggests a lock in unit as recited in independent claim 1, or the claimed combination". The Examiner disagrees. When the screw is tightened there would be some sort of elastic deformation with the screw 63, back wall 62 of receiving pan 60 and the apron panel 51. Other parts of the remarks for the rest of the claims are covered by the statement of the rejections. Therefore, the rejections are proper.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Applicant's arguments with respect to claims1-31 have been considered but are moot in view of the new ground(s) of rejection as stated above.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mohammad Ali whose telephone number is (571) 272-4806. The examiner can normally be reached on Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cheryl Tyler can be reached on (571) 272-4834. The fax phone number for the organization where this application or proceeding is assigned is 571-273-4834.
